

## **HOW SAFE ARE YOUR VEGGIES PROJECT**

**March, 2018**

Ten cauliflower samples were collected randomly in the month of March, 2018 from the markets in the areas of Mehdipatnam, Hyderguda, and Monda market (Secunderabad).

The samples were analyzed for pesticide residues using validated method with confirmatory analysis on GC-MS/MS and LC-MS/MS at 10 PPB (Parts per Billion) level.

Out of ten (10) samples analysed, no sample found contaminated with pesticide residues.
