

## **HOW SAFE IS YOUR FOOD FROM FARM PROJECT**

**July, 2021**

Fifteen Vegetables (**Tomato**) & Fifteen Fruits (**Apple**) **samples** were collected randomly in the month of **July, 2021** from the market in the area of Mehidipatnam & Shamsabad .

The samples were analysed for pesticide residues using validated method with confirmatory analysis on GC-MS/MS and LC-MS/MS at 10 ppb (Parts per Billion) level.

Total Thirty (30) samples analysed and no samples found contaminated with pesticide residues.
