About NIPHM

National Institute of Plant Health Management (NIPHM), an Autonomous Organization under Department of Agriculture and Farmers Welfare, Ministry of Agriculture & Farmers Welfare (Government of India), is committed for advancing sustainable agricultural practices across the country. In this context, student-centric programs, especially in the areas such as 'Sustainable Soil & Plant Health Management' are crucial for developing the new generation of agricultural professionals and environmental stewards. Through students' centric programs, NIPHM thrives to sensitize the importance of ecological sustainability, soil health conservation and integrated pest and nutrient management.

Background

The institute has developed various low-cost technologies and inputs to minimize the use of chemical fertilizers in agriculture and to promote non-chemical ways to control pests and soil/plant health management. The institute also provides technical support to various State Governments, ICAR, KVKs, SHGs, FPOs and other organizations by imparting training, demonstration and awareness activity through on-campus, off-campus and online modes. While working in the States of Tamil Nadu, Maharashtra, Telangana, Andhra Pradesh, Chhattisgarh, etc., NIPHM experienced that awareness and accessibility of low-cost bio-inputs and its production technologies may be key to boosting the adoption of organic & natural farming in the country and providing quality bio inputs to the farmers. In this context, NIPHM has planned to organize this training programme from 09.02.2026 to 13.02.2026;

Salient features of the training

- Introduction to Bio-inputs and BRCs- schemes Guidelines
- Protocols and requirements for bio input production units
- Farm-level production of biofertilizers and application methods
- Low -cost production of *Trichoderma* & *Pseudomonas fluorescens*, EPF, NPV, EPN, etc.,
- Role of pheromones in insect pest management
- Low-cost fermenter setup and handling
- Natural farming preparations for soil nutrient and pest management
- Quality control guidelines
- Experience sharing by participants
- Visit the BRC unit

Eligible participants

Govt. officials/Technical Officers, Scientists/Assistant Professors or above, from any university/institute/organization. The CEOs of FPOs/SHGs., rural youth entrepreneurs who are practicing natural farming.

Guidelines for government officials:

- There will be no training fees for government officials.
- However, TA/DA will not be provided to participants by the institute and boarding charges have to be borne by the participants @Rs.305/- per day/participant directly to the service provider. Further, free lodging will be provided at NIPHM for the training period, only. Additional days of stay will be charged as per the NIPHM norms. No family member is allowed even on a payment basis.
- Interested govt. officials/ private candidates/FPOs/SHGs must register for the programme at NIPHM training registration portal [http:// 14.139.92.166/otr/register.aspx](http://14.139.92.166/otr/register.aspx) before 06.02.2026.
- Govt officials must upload their nomination letters & official nomination may be communicated to this institute through proper channels.

Guidelines for private candidates/Entrepreneurs:

- There will be nominal training fees for private candidates/Entrepreneurs . However, TA/DA will not be provided to participants by the institute.
- The training cost details are mentioned below;

S. No	Category	Amount /person/day (Rs.)
1	Training charges	₹ 1250/- (inclusive GST)
2.	Lodging charges (Double sharing in Hostel-I)	₹500/- (inclusive GST)
3.	Boarding charges	₹305/- (inclusive GST)

Medium of training: English
